**Barings**  
**CORPORATE INVESTORS**  
2021 Annual Report

## **BARINGS CORPORATE INVESTORS**

Barings Corporate Investors (the "Trust") is a closed-end management investment company, first offered to the public in 1971, whose shares are traded on the New York Stock Exchange under the trading symbol "MCI". The Trust's share price can be found in the financial section of newspapers under either the New York Stock Exchange listings or Closed-End Fund Listings.

## **INVESTMENT OBJECTIVE & STRATEGIES**

The Trust's investment objective is to maintain a portfolio of securities providing a current yield and, when available, an opportunity for capital gains. The Trust's principal investments are privately placed, below-investment grade, long-term debt obligations including bank loans and mezzanine debt instruments. Such private placement securities may, in some cases, be accompanied by equity features such as common stock, preferred stock, warrants, conversion rights, or other equity features. The Trust typically purchases these investments, which are not publicly tradable, directly from their issuers in private placement transactions. These investments are typically made to small or middle market companies. In addition, the Trust may invest, subject to certain limitations, in marketable debt securities (including high yield and/or investment grade securities) and marketable common stock. Below-investment grade or high yield securities have predominantly speculative characteristics with respect to the capacity of the issuer to pay interest and repay capital.

The Trust distributes substantially all of its net income to shareholders each year. Accordingly, the Trust pays dividends to shareholders four times a year in January, May, August, and November. The Trust pays dividends to its shareholders in cash, unless the shareholder elects to participate in the Dividend Reinvestment and Share Purchase Plan.

In this report, you will find a complete listing of the Trust's holdings. We encourage you to read this section carefully for a better understanding of the Trust. We cordially invite all shareholders to attend the Trust's Annual Meeting of Shareholders, which will be held on May 19, 2022 at 8:00 A.M. (Eastern Time) in Charlotte, North Carolina, and virtually at the following website <https://www.viewproxy.com/barings/broadridgevsm/>.

## **PROXY VOTING POLICIES & PROCEDURES;**

### **PROXY VOTING RECORD**

The Trustees of the Trust have delegated proxy voting responsibilities relating to the voting of securities held by the Trust to Barings LLC ("Barings"). A description of Barings' proxy voting policies and procedures is available (1) without charge, upon request, by calling, toll-free 1-866-399-1516; (2) on the Trust's website at <http://www.barings.com/mci>; and (3) on the U.S. Securities and Exchange Commission's ("SEC") website at <http://www.sec.gov>. Information regarding how the Trust voted proxies relating to portfolio securities during the most recent 12-month period ended June 30, 2021 is available (1) on the Trust's website at <http://www.barings.com/mci>; and (2) on the SEC's website at <http://www.sec.gov>.

### **FORM N-PORT**

The Trust files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on part F of Form N-PORT. This information is available (i) on the SEC's website at <http://www.sec.gov>; and (ii) at the SEC's Public Reference Room in Washington, DC (which information on their operation may be obtained by calling 1-800-SEC-0330). A complete schedule of portfolio holdings as of each quarter-end is available on the Trust's website at <http://www.barings.com/mci> or upon request by calling, toll-free, 1-866-399-1516.

### **LEGAL MATTERS**

The Trust has entered into contractual arrangements with an investment adviser, transfer agent and custodian (collectively "service providers") who each provide services to the Trust. Shareholders are not parties to, or intended beneficiaries of, these contractual arrangements, and these contractual arrangements are not intended to create any shareholder right to enforce them against the service providers or to seek any remedy under them against the service providers, either directly or on behalf of the Trust.

Under the Trust's Bylaws, any claims asserted against or on behalf of the Trust, including claims against Trustees and officers must be brought in courts located within the Commonwealth of Massachusetts.

The Trust's registration statement and this shareholder report are not contracts between the Trust and its shareholders and do not give rise to any contractual rights or obligations or any shareholder rights other than any rights conferred explicitly by federal or state securities laws that may not be waived.

### PORTFOLIO COMPOSITION AS OF 12/31/2020\*

\* Based on market value of total investments

In July 2017, the head of the U.K. Financial Conduct Authority (the "FCA"), announced that the FCA will no longer persuade or compel banks to submit rates for the calculation of LIBOR after 2021. In March 2021, the FCA confirmed that all LIBOR settings will either cease to be provided by any administrator or no longer be representative: (a) immediately after December 31, 2021, in the case of sterling, euro, Swiss franc, and Japanese yen, and the one week and two month U.S. dollar settings; and (b) immediately after June 30, 2023, in the case of the remaining U.S. dollar settings. In addition, as a result of supervisory guidance from U.S. regulators, some U.S. regulated entities will cease to enter into new LIBOR contracts after January 1, 2022. At this time, no consensus exists as to what rate or rates will become accepted alternatives to LIBOR, although the Alternative Reference Rates Committee, a steering committee convened by the Board of Governors of the Federal Reserve System and the Federal Reserve Bank of New York and comprised of large U.S. financial institutions, has recommended the use of the Secured Overnight Financing Rate, SOFR. There are many uncertainties regarding a transition from LIBOR to SOFR or any other alternative benchmark rate that may be established, including, but not limited to, the timing of any such transition, the need to amend all contracts with LIBOR as the referenced rate and, given the inherent differences between LIBOR and SOFR or any other alternative benchmark rate, how any transition may impact the cost and performance of impacted securities, variable rate debt and derivative financial instruments. In addition, SOFR or another alternative benchmark rate may fail to gain market acceptance, which could adversely affect the return on, value of and market for securities, variable rate debt and derivative financial instruments linked to such rates. The effects of a transition from LIBOR to SOFR or any other alternative benchmark rate on the Trust's cost of capital and net investment income cannot yet be determined definitively. All of the Trust's loan agreements with

the Trust's portfolio companies include fallback language in the event that LIBOR becomes unavailable. This language generally either includes a clearly defined alternative reference rate after LIBOR's discontinuation or provides that the administrative agent may identify a replacement reference rate, typically with the consent of (or prior consultation with) the borrower. In certain cases, the administrative agent will be required to obtain the consent of either a majority of the lenders under the facility, or the consent of each lender, prior to identifying a replacement reference rate. In addition, any further changes or reforms to the determination or supervision of LIBOR may result in a sudden or prolonged increase or decrease in reported LIBOR, which could have an adverse impact on the market value for or value of any LIBOR-linked securities, loans, and other financial obligations or extensions of credit held by or due to the Trust and could have a material adverse effect on the Trust's business, financial condition and results of operations.

**Hypothetical growth of \$10,000 Investment (unaudited)**

Average Annual Returns December 31, 2021	1 Year	5 Year	10 Year
Barings Corporate Investors	29.13%	8.46%	6.87%
Bloomberg Barclays U.S. Corporate High Yield Index	5.28%	6.30%	6.83%

Data for Barings Corporate Investors (the "Trust") represents returns based on the change in the Trust's market price assuming the reinvestment of all dividends and distributions. Past performance is no guarantee of future results.

The graph and table do not reflect the deduction of taxes that a shareholder would pay on distributions from the Trust or the sale of shares.

## TO OUR SHAREHOLDERS

I am pleased to share with you the Trust's Annual Report for the year ended December 31, 2021.

## PORTFOLIO PERFORMANCE

The Trust's net total portfolio rate of return for 2021 was 17.57%, as measured by the change in net asset value assuming the reinvestment of all dividends and distributions. The Trust's total net assets were \$338,041,104 or \$16.68 per share, as of December 31, 2021. This compares to \$304,684,324 or \$15.04 per share, as of December 31, 2020. The Trust paid a quarterly dividend of \$0.24 per share for each of the four quarters of 2021, for a total annual dividend of \$0.96 per share. In 2020, the Trust paid four quarterly dividends of \$0.24 per share, for a total annual dividend of \$0.96 per share. Net taxable investment income for 2021 was \$0.96 per share, including approximately \$0.14 per share of non-recurring income, compared to 2020 net taxable investment income of \$1.20 per share, which included approximately \$0.33 per share of non-recurring income.

The Trust's stock price increased 21.2% during 2021, from \$13.18 as of December 31, 2020 to \$15.98 as of December 31, 2021. The Trust's stock price of \$15.98 as of December 31, 2021 equates to a 4.2% discount to the December 31, 2021 net asset value per share of \$16.68. The Trust's average quarter-end premium/discount for the 3-, 5-, 10- and 25-year periods ended December 31, 2021 was -4.6%, -2.5%, 5.5%, and 7.3%, respectively.

The table below lists the average annual net returns of the Trust's portfolio, based on the change in net assets and assuming the reinvestment of all dividends and distributions. Average annual returns of the Bloomberg Barclays U.S. Corporate High Yield Index for the 1-, 3-, 5-, 10- and 25-year periods ended December 31, 2021 and the Credit Suisse Leveraged Loan Index for the 1- and 3-year periods ended December 31, 2021 are provided for comparison purposes only.

	The Trust	Bloomberg Barclays US Corporate HY Index	Credit Suisse Leveraged Loan Index
1 Year	17.57%	5.28%	5.40%
3 Years	12.09%	8.83%	5.43%
5 Years	10.95%	6.30%	
10 Years	11.44%	6.83%	
25 Years	12.18%	6.87%	

Past performance is no guarantee of future results

## PORTFOLIO ACTIVITY

The Trust had an active fourth quarter, closing on 26 new private placement investments totaling \$60.5 million and 19 add-on investments in existing portfolio companies totaling \$10.7 million. For the year, the Trust closed 49 new private placement investments, and 46 add-on investments in existing portfolio companies. A brief description of these investments can be found in the Consolidated Schedule of Investments. The total amount invested by the Trust in private placement investments in 2021 was \$149.1 million, which was significantly higher than the \$64.6 million of private placement investments made by the Trust in 2020.

New deal activity in 2021 occurred throughout the year with steady investment in the first three quarters ending the year with an exceptionally strong fourth quarter. The Trust was well-positioned to invest in 2021 due to the continuation of increased origination flow into 1<sup>st</sup> lien senior secured middle market assets, expansion of the private debt platform of Barings (the Trust's investment adviser), and overall activity within the private debt market. These favorable items were partially offset by the continuance of hyper-competitive and aggressive market conditions. Competition for new investment opportunities remained intense due to the amount of fresh capital that flowed into the private debt and private equity markets. As a result, companies continued to be pursued aggressively by both buyers and lenders alike, leading to the continued prevalence of high purchase multiples and leverage levels in the market. We have strengthened our liquidity position by entering into a \$30.0 million committed revolving credit facility with MassMutual (See Note 4). We drew \$8.0 million on the facility at the end of the fourth quarter to fund new investments.

The Trust's portfolio experienced an increased level of economic stress due to COVID-19 in early 2020. During the course of 2020 and 2021, in addition to working on new investment activity, we continued to maintain our focus on managing and maintaining the quality of the portfolio. Towards the end of the third quarter 2020, the credit quality of the Trust's existing portfolio stabilized and began a trend of improvement that continued through the end of 2021. In our view, the number of companies on our watch list or in default has remained at acceptable levels.

We had 35 companies exit from the Trust's portfolio during 2021. This level of exit activity in the Trust's portfolio was above recent years as realization levels have ranged from 18-32 exits annually since 2014. In 33 of these exits, the Trust realized a positive return on its investment. This level of realization activity in recent years is yet another indicator of how active and aggressive the middle market M&A and debt markets have been, and continue to be.

During 2021, the Trust had 4 portfolio companies fully or partially pre-pay their debt obligations. These transactions, in which the debt instruments held by the Trust were fully or partially prepaid, are generally driven by performing companies seeking to take advantage of lower interest rates and the abundance of debt capital. Unless replaced by new private debt investments, these prepayments reduce net investment income. The level of refinancing activity the portfolio has experienced has remained relatively stable since 2016. Two portfolio companies paid dividends to the Trust on its equity holdings in those companies.

## **OUTLOOK FOR 2022**

With demand for products and services continuing to increase, one key question in 2022 is whether supply chains can keep up with the renewed demand and whether we will see material increases in prices as a result of supply-chain bottlenecks, rising raw material and energy costs and labor shortages. Across the world, and particularly in regions with large manufacturing sectors which depend on international trade, these risks may be key. However, it is important to note that such issues do not affect every geography and sector the same. When constructing portfolios, we focus on investing in high-quality businesses which are leaders in their space and offer defensive characteristics which will allow them to perform through the cycle. Therefore, while segments of the broader economy may be affected by potential supply chain issues, increasing raw material and energy costs and labor shortages, we remain confident in the current diversified portfolio to perform through the cycle.

As we enter 2022, default rates remain at relatively low levels, there appears to be plenty of both private equity and private debt capacity, which should continue to drive middle market M&A activity, and our pipeline of investment opportunities remains relatively

stable and healthy. However, as mentioned above, the dynamics within that market have been, and are expected to remain, aggressive. Rest assured that regardless of market conditions, we will continue to employ on behalf of the Trust the same investment philosophy that has served it well since its inception: investing in companies that we believe have a strong business proposition, solid cash flow and experienced, ethical management. We believe this philosophy, along with Barings' seasoned investment-management team, positions the Trust well to meet its long-term investment objectives.

The Trust maintained its quarterly dividend of \$0.24 per share in 2021 for a total annual dividend of \$0.96 per share. As has been mentioned in prior reports, recurring investment income alone has generally not been sufficient to fully fund the current dividend rate, which has required supplementation from non-recurring income and earnings carry forwards. While recurring investment income remains stable, it may not be sufficient to fully fund the current dividend rate in the future. Net investment income has generally been below the dividend rate since 2013 due principally to the considerable reduction in the number of higher yielding junior debt investment opportunities resulting from prepayments and realizations in the portfolio, combined with generally lower investment returns available due to market and competitive dynamics in recent years. Floating interest rates continue to be low by historic standards, and should such rates rise, the Trust's income would likely also rise. The percentage of the portfolio in floating rate debt securities, which are often secured and generally of higher credit quality than higher-yielding junior debt, increased to 70% as of December 31, 2021, compared to 59% as of December 31, 2020. All of the above said, the level of recurring investment income expected to be generated by the Trust in 2022, combined with the availability of earnings carry forwards and other non-recurring income, is currently expected to be sufficient to maintain the current dividend rate over the next several quarters. Over time, however, the Trust's dividend paying ability tends to be correlated with its recurring earnings capacity. We and the Board of Trustees will continue to evaluate the current and future earnings capacity of the Trust and formulate a dividend strategy that is consistent with the Trust's recurring earnings.

As always, I would like to thank you for your continued interest in and support of Barings Corporate Investors. I look forward to seeing you at the Trust's annual shareholder meeting on Thursday May 19, 2022.

Sincerely,

Christina Emery

President

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### 1. History

Barings Corporate Investors (the "Trust") commenced operations in 1971 as a Delaware corporation. Pursuant to an Agreement and Plan of Reorganization dated November 14, 1985, approved by shareholders, the Trust was reorganized as a Massachusetts business trust under the laws of the Commonwealth of Massachusetts, effective November 28, 1985.

The Trust is a diversified closed-end management investment company. Barings LLC ("Barings"), a wholly-owned indirect subsidiary of Massachusetts Mutual Life Insurance Company ("MassMutual"), acts as its investment adviser. The Trust's investment objective is to maintain a portfolio of securities providing a current yield and, when available, an opportunity for capital gains. The Trust's principal investments are privately placed, below-investment grade, long-term debt obligations including bank loans and mezzanine debt instruments. Such direct placement securities may, in some cases, be accompanied by equity features such as common stock, preferred stock, warrants, conversion rights, or other equity features. The Trust typically purchases these investments, which are not publicly tradable, directly from their issuers in private placement transactions. These investments are typically made to small or middle market companies. In addition, the Trust may invest, subject to certain limitations, in marketable debt securities (including high yield and/or investment grade securities) and marketable common stocks. Below-investment grade or high yield securities have predominantly speculative characteristics with respect to the capacity of the issuer to pay interest and repay capital.

In 1998, the Board of Trustees authorized the formation of a wholly-owned subsidiary of the Trust ("CI Subsidiary Trust") for the purpose of holding certain investments. The results of CI Subsidiary Trust are consolidated in the accompanying financial statements. Footnote 2.D below discusses the Federal tax consequences of the CI Subsidiary Trust.

### 2. Significant Accounting Policies

The following is a summary of significant accounting policies followed consistently by the Trust in the preparation of its consolidated financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

The Trustees have determined that the Trust is an investment company in accordance with Accounting Standards Codification ("ASC") 946, *Financial Services – Investment Companies*, for the purpose of financial reporting.

#### A. Fair Value Measurements:

Under U.S. GAAP, fair value represents the price that should be received to sell an asset (exit price) in an orderly transaction between willing market participants at the measurement date.

#### Determination of Fair Value

The determination of the fair value of the Trust's investments is the responsibility of the Trust's Board of Trustees (the "Trustees"). The Trustees have adopted procedures for the valuation of the Trust's securities and have delegated responsibility for applying those procedures to Barings. Barings has established a Pricing Committee which is responsible for setting the guidelines used in following the procedures adopted by the Trustees and ensuring that those guidelines are being followed. Barings considers all relevant factors that are reasonably available, through either public information or information directly available to Barings, when determining the fair value of a security. The Trustees meet at least once each quarter to approve the value of the Trust's portfolio securities as of the close of business on the last business day of the preceding quarter. This valuation requires the approval of a majority of the Trustees of the Trust, including a majority of the Trustees who are not interested persons of the Trust or of Barings. In approving valuations, the Trustees will consider reports by Barings analyzing each portfolio security in accordance with the procedures and guidelines referred to above, which include the relevant factors referred to below. Barings has agreed to provide such reports to the Trust at least quarterly. The consolidated financial statements include private placement restricted securities valued at \$330,680,099 (97.82% of net assets) as of December 31, 2021 the values of which have been estimated by the Trustees based on the process described above in the absence of readily ascertainable market values. Due to the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material.

#### Independent Valuation Process

The fair value of bank loans and equity investments that are unsyndicated or for which market quotations are not readily available, including middle-market bank loans, will be submitted to an independent provider to perform an independent valuation on those bank loans and equity investments as of the end of each quarter. Such bank loans and equity investments will be held at cost until such time as they are sent to the valuation provider for an initial valuation subject to override by the Adviser should it

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

determine that there have been material changes in interest rates and/or the credit quality of the issuer. The independent valuation provider applies various methods (synthetic rating analysis, discounting cash flows, and re-underwriting analysis) to establish the rate of return a market participant would require (the "discount rate") as of the valuation date, given market conditions, prevailing lending standards and the perceived credit quality of the issuer. Future expected cash flows for each investment are discounted back to present value using these discount rates in the discounted cash flow analysis. A range of value will be provided by the valuation provider and the Adviser will determine the point within that range that it will use in making valuation recommendations to the Trustees, and will report to the Trustees on its rationale for each such determination. The Adviser will continue to use its internal valuation model as a comparison point to validate the price range provided by the valuation provider and, where applicable, in determining the point within that range that it will use in making valuation recommendations to the Trustees. If the Advisers' Pricing Committee disagrees with the price range provided, it may make a fair value recommendation to the Trustees that is outside of the range provided by the independent valuation provider, and will notify the Trustees of any such override and the reasons therefore. In certain instances, the Trust may determine that it is not cost-effective, and as a result is not in the shareholders' best interests, to request the independent valuation firm to perform the Procedures on certain investments. Such instances include, but are not limited to, situations where the fair value of the investment in the portfolio company is determined to be insignificant relative to the total investment portfolio. Finally, the Trustees determined in good faith that the Trust's investments were valued at fair value in accordance with the Trust's valuation policies and procedures and the 1940 Act based on, among other things, the input of Barings, the Trust's Audit Committee and the independent valuation firm.

Following is a description of valuation methodologies used for assets recorded at fair value:

**Corporate Public Securities at Fair Value – Bank Loans, Corporate Bonds, Preferred Stocks and Common Stocks**

The Trust uses external independent third-party pricing services to determine the fair values of its Corporate Public Securities. At December 31, 2021, 100% of the carrying value of these investments was from external pricing services. In the event that the primary pricing service does not provide a price, the Trust utilizes the pricing provided by a secondary pricing service.

Public debt securities generally trade in the over-the-counter market rather than on a securities exchange. The Trust's pricing services use multiple valuation techniques to determine fair value. In instances where significant market activity exists, the pricing services may utilize a market based approach through which quotes from market makers are used to determine fair value. In instances where significant market activity may not exist or is limited, the pricing services also utilize proprietary valuation models which may consider market characteristics such as benchmark yield curves, option adjusted spreads, credit spreads, estimated default rates, coupon rates, anticipated timing of principal underlying prepayments, collateral, and other unique security features in order to estimate the relevant cash flows, which are then discounted to calculate the fair value.

The Trust's investments in bank loans are normally valued at the bid quotation obtained from dealers in loans by an independent pricing service in accordance with the Trust's valuation policies and procedures approved by the Trustees.

Public equity securities listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sales price of that day.

At least annually, Barings conducts reviews of the primary pricing vendors to validate that the inputs used in that vendors' pricing process are deemed to be market observable as defined in the standard. While Barings is not provided access to proprietary models of the vendors, the reviews have included on-site walk-throughs of the pricing process, methodologies and control procedures for each asset class and level for which prices are provided. The reviews also include an examination of the underlying inputs and assumptions for a sample of individual securities across asset classes, credit rating levels and various durations. In addition, the pricing vendors have an established challenge process in place for all security valuations, which facilitates identification and resolution of prices that fall outside expected ranges. Barings believes that the prices received from the pricing vendors are representative of prices that would be received to sell the assets at the measurement date (exit prices) and are classified appropriately in the hierarchy.

**Corporate Restricted Securities at Fair Value – Bank Loans, Corporate Bonds**

The fair value of certain notes is generally determined using an internal model that discounts the anticipated cash flows of those notes using a specific discount rate. Changes to that discount rate are driven by

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

changes in general interest rates, probabilities of default and credit adjustments. The discount rate used within the models to discount the future anticipated cash flows is considered a significant unobservable input. Increases/(decreases) in the discount rate would result in a (decrease)/increase to the notes' fair value.

The fair value of certain distressed notes is based on an enterprise waterfall methodology which is discussed in the equity security valuation section below.

**Corporate Restricted Securities at Fair Value –  
Common Stock, Preferred Stock and  
Partnerships & LLC's**

The fair value of equity securities is generally determined using an enterprise waterfall methodology. Under this methodology, the enterprise value of the company is first estimated and that value is then allocated to the company's outstanding debt and equity securities based on the documented priority of each class of securities in the capital structure. Generally, the waterfall proceeds from senior debt, to senior and junior subordinated debt, to preferred stock, then finally common stock.

To estimate a company's enterprise value, the company's trailing twelve months earnings before interest, taxes, depreciation and amortization ("EBITDA") is multiplied by a valuation multiple.

Both the company's EBITDA and valuation multiple are considered significant unobservable inputs. Increases/ (decreases) to the company's EBITDA and/or valuation multiple would result in increases/ (decreases) to the equity value.

**Short-Term Securities**

Short-term securities with more than sixty days to maturity are valued at fair value, using external

independent third-party services. Short-term securities, of sufficient credit quality, having a maturity of sixty days or less are valued at amortized cost, which approximates fair value.

**New Accounting Pronouncement**

In March 2020, the Financial Accounting Standards Board issued Accounting Standards Update 2020-04 ("ASU 2020-04") "Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting." This guidance provides optional expedients and exceptions for applying generally accepted accounting principles to contract modifications and hedging relationships, subject to meeting certain criteria, that reference LIBOR or another reference rate expected to be discontinued. ASU 2020-04 is effective for all entities as of March 12, 2020 through December 31, 2022. The Trust is still evaluating the impact of this accounting standard.

**Fair Value Hierarchy**

The Trust categorizes its investments measured at fair value in three levels, based on the inputs and assumptions used to determine fair value. These levels are as follows:

Level 1 – quoted prices in active markets for identical securities

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 – significant unobservable inputs (including the Trust's own assumptions in determining the fair value of investments)

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS** (CONTINUED)

The following table summarizes the levels in the fair value hierarchy into which the Trust's financial instruments are categorized as of December 31, 2021.

The fair values of the Trust's investments disaggregated into the three levels of the fair value hierarchy based upon the lowest level of significant input used in the valuation as of December 31, 2021 are as follows:

<b>Assets:</b>	<b>Total</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>
Restricted Securities				
Corporate Bonds	\$ 34,228,220	\$ -	\$ 14,415,659	\$ 19,812,561
Bank Loans	266,448,199	-	-	266,448,199
Common Stock - U.S.	2,597,553	-	-	2,597,553
Preferred Stock	3,555,582	-	-	3,555,582
Partnerships and LLCs	38,266,204	-	-	38,266,204
Public Securities				
Bank Loans	6,742,500	-	4,521,763	2,220,737
Corporate Bonds	1,659,063	-	1,659,063	-
Common Stock - U.S.	96,495	14,464	-	82,031
Short-term Securities	7,999,129	7,999,129	-	-
<b>Total</b>	<b>\$361,592,945</b>	<b>\$8,013,593</b>	<b>\$20,596,485</b>	<b>\$332,982,867</b>

See information disaggregated by security type and industry classification in the Consolidated Schedule of Investments.

**Quantitative Information about Level 3 Fair Value Measurements**

The following table represents quantitative information about Level 3 fair value measurements as of December 31, 2021.

	<b>Fair Value</b>	<b>Valuation Technique</b>	<b>Unobservable Inputs</b>	<b>Range</b>	<b>Weighted*</b>
<b>Bank Loans</b>	\$191,490,421	Income Approach	Implied Spread	8.1% - 8.7%	8.4%
<b>Corporate Bonds</b>	\$19,812,560	Income Approach	Implied Spread	10.6% - 21.5%	13.6%
<b>Equity Securities**</b>	\$43,153,382	Enterprise Value Waterfall Approach	Valuation Multiple	5.0x to 54.0x	13.9x

Certain of the Trust's Level 3 securities investments may be valued using unadjusted inputs that have not been internally developed by the Trust, including recently purchased securities held at cost. As a result, fair value of assets of \$78,526,504 have been excluded from the preceding table.

\* The weighted averages disclosed in the table above were weighted by relative fair value

\*\* Including partnerships and LLC's

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

Following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value:

Assets:	Beginning balance at 12/31/2020	Included in earnings	Purchases	Sales	Prepayments	Transfers into Level 3	Transfers out of Level 3	Ending balance at 12/31/2021
<b>Restricted Securities</b>								
Corporate Bonds	\$ 38,180,960	\$ (1,409,077)	\$ 4,216,241	\$(13,219,731)	\$ (7,955,832)	\$ -	\$ -	\$ 19,812,561

Corporate Bonds	-	-	-	-	-	-	-	-
Common Stock	324,352	99,263	-	(341,584)	-	-	-	82,031
Short-term Securities	-	-	-	-	-	-	-	-
<b>Total</b>	<b>\$259,308,997</b>	<b>\$32,927,634</b>	<b>\$155,311,797</b>	<b>\$(34,834,814)</b>	<b>\$(85,924,722)</b>	<b>\$7,199,383</b>	<b>\$(1,005,408)</b>	<b>\$332,982,867</b>

\* For the year ended December 31, 2021, transfers into and out of Level 3 were the result of changes in the observability of significant inputs for certain portfolio companies.

Income, Gains and Losses on Level 3 assets included in Net Increase in Net Assets resulting from Operations for the year are presented in the following accounts on the Statement of Operations:

	Net Increase in Net Assets Resulting from Operations	Change in Unrealized Appreciation in Net Assets from assets still held
Interest Income (OID amortization)	\$ 878,005	\$ -
Net realized gain on investments before taxes	10,826,519	-
Net change in unrealized appreciation of investments before taxes	21,223,110	24,199,751

**B. Accounting for Investments:****Investment Income**

Investment transactions are accounted for on the trade date. Interest income, including the amortization of premiums and accretion of discounts on bonds held using the yield- to-maturity method, is recorded on the accrual basis to the extent that such amounts are expected to be collected. Generally, when interest and/or principal payments on a loan become past due, or if the Trust otherwise does not expect the borrower to be able to service its debt and other obligations, the Trust will place the investment on nonaccrual status and will cease recognizing interest income on that investment for financial reporting purposes until all principal and interest have been brought current through payment or due to a restructuring such that the interest income is deemed to be collectible. The Trust writes off any previously accrued and uncollected interest when it is determined that interest is no longer considered

collectible. As of December 31, 2021, the fair value of the Trust's nonaccrual assets was \$8,833,187, or 2.4% of the total fair value of the Trust's portfolio, and the cost of the Trust's nonaccrual assets was \$13,710,586, or 4.0% of the total cost of the Trust's portfolio.

**Payment-in-Kind Interest**

The Trust currently holds, and expects to hold in the future, some investments in its portfolio that contain Payment-in-Kind ("PIK") interest provisions. The PIK interest, computed at the contractual rate specified in each loan agreement, is added to the principal balance of the investment, rather than being paid to the Trust in cash, and is recorded as interest income. Thus, the actual collection of PIK interest may be deferred until the time of debt principal repayment. PIK interest, which is a non-cash source of income at the time of recognition, is included in the Trust's taxable income and therefore affects the amount the Trust is required to distribute to its stockholders to

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

maintain its qualification as a “regulated investment company” for federal income tax purposes, even though the Trust has not yet collected the cash. Generally, when current cash interest and/or principal payments on an investment become past due, or if the Trust otherwise does not expect the borrower to be able to service its debt and other obligations, the Trust will place the investment on PIK non-accrual status and will cease recognizing PIK interest income on that investment for financial reporting purposes until all principal and interest have been brought current through payment or due to a restructuring such that the interest income is deemed to be collectible. The Trust writes off any accrued and uncollected PIK interest when it is determined that the PIK interest is no longer collectible. As of December 31, 2021, the Trust held no PIK non-accrual assets.

### Realized Gain or Loss and Unrealized Appreciation or Depreciation of Portfolio Investments

Realized gains and losses on investment transactions and unrealized appreciation and depreciation of investments are reported for financial statement and Federal income tax purposes on the identified cost method.

### C. Use of Estimates:

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and the differences could be material.

### D. Federal Income Taxes:

The Trust has elected to be taxed as a “regulated investment company” under the Internal Revenue Code, and intends to maintain this qualification and to distribute substantially all of its net taxable income to its shareholders. In any year when net long-term capital gains are realized by the Trust, management, after evaluating the prevailing economic conditions, will recommend that the Trustees either designate the net realized long-term gains as undistributed and pay the Federal capital gains taxes thereon or distribute all or a portion of such net gains. In 2021, the Trust incurred \$1,750,000 of tax as a result of retained capital gains.

The Trust is taxed as a regulated investment company and is therefore limited as to the amount of non-qualified income that it may receive as the result of operating a trade or business, e.g. the Trust’s pro rata share of income allocable to the Trust by a partnership operating company. The Trust’s violation of this limitation could result in the loss of its status as a

regulated investment company, thereby subjecting all of its net income and capital gains to corporate taxes prior to distribution to its shareholders. The Trust, from time-to-time, identifies investment opportunities in the securities of entities that could cause such trade or business income to be allocable to the Trust. The CI Subsidiary Trust (described in Footnote 1 above) was formed in order to allow investment in such securities without adversely affecting the Trust’s status as a regulated investment company.

Net investment income and net realized gains or losses of the Trust as presented under U.S. GAAP may differ from distributable taxable earnings due to earnings from the CI Subsidiary Trust as well as certain permanent and temporary differences in the recognition of income and realized gains or losses on certain investments. In accordance with U.S. GAAP, the Trust has made reclassifications among its capital accounts. These reclassifications are intended to adjust the components of net assets to reflect the tax character of permanent book/tax differences and have no impact on the net assets or net asset value of the Trust. As of December 31, 2021, the Trust made reclassifications to increase or (decrease) the components of net assets detailed below:

Paid-In Capital	Total Distributable Earnings	Retained Capital Gains
<u>6,172,118</u>	<u>1,319,670</u>	<u>(7,491,788)</u>

The Trusts’ current income tax expense as shown on the Statement of Operations included excise tax expense of \$585,248 and income tax expense related to realized gains on investments of 2,130,306. The 2,130,306 of income tax expense on realized gains on investments included income tax expense related to the CI Subsidiary Trust as described in the table below of \$378,902 and \$1,404 of 2020 tax return payments.

The CI Subsidiary Trust is not taxed as a regulated investment company. Accordingly, prior to the Trust receiving any distributions from the CI Subsidiary Trust, all of the CI Subsidiary Trust’s taxable income and realized gains, including non-qualified income and realized gains, is subject to taxation at prevailing corporate tax rates. The CI Subsidiary Trust had \$1,942,168 of taxable income as of December 31, 2021.

On March 27, 2020 President Trump signed into law H.R. 748, the CARES Act. Included in the CARES Act is a provision allowing for a five year carryback of net operating losses generated in tax years beginning after December 31, 2017 and beginning before January 1, 2021. As a result of the application of the CARES Act, the CI Subsidiary Trust carried back \$368,258 of net operating losses generated in tax year 2020 resulting in a \$125,208 refund from taxes paid in tax year 2015.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

The components of income taxes included in the CI Subsidiary Trust were as follows:

**Income tax expense (benefit)**

Current:		
Federal		\$257,061
State		<u>121,842</u>
Total current		<u>\$378,902</u>
Deferred:		
Federal		\$277,173
State		<u>129,430</u>
Total deferred		<u>406,603</u>
Total income tax expense from continuing operations		<u>\$785,505</u>

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of the existing assets and liabilities and their respective tax basis. As of December 31, 2021, the CI Subsidiary Trust had \$406,603 of net deferred tax liability.

The tax effects of temporary differences that give rise to significant portions of the deferred tax assets and liabilities as of December 31, 2021 were as follows:

**Deferred tax assets/(liabilities):**

Net operating loss carryover		<u>\$ 139,456</u>
General business credit carryforward		538
Total deferred tax assets		139,994
Less valuation allowance		<u>-</u>
Net deferred tax asset		<u>139,994</u>
Unrealized gain on investments		<u>(546,597)</u>
Total deferred tax liabilities		<u>(546,597)</u>
Net deferred tax liability		<u>\$(406,603)</u>

The CI Subsidiary Trust has valuation allowances of \$0 and \$290,276 as of December 31, 2021 and 2020, respectively. The 2020 valuation allowance was released during 2021 as management believes it is more likely than not that the deferred taxes will be realized.

The Trust recognizes a tax benefit from an uncertain position only if it is more likely than not that the position is sustainable, based solely on its technical merits and consideration of the relevant taxing authority's widely understood administrative practices and precedents. If this threshold is met, the Trust measures the tax benefit as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. Tax positions not

deemed to meet the "more-likely-than-not" threshold are reserved and recorded as a tax benefit or expense in the current year. All penalties and interest associated with income taxes are included in income tax expense. The Trust has evaluated and determined that the tax positions did not have a material effect on the Trust's financial position and results of operations for the year ended December 31, 2021.

A reconciliation of the differences between the Trust's income tax expense and the amount computed by applying the prevailing U.S. Federal tax rate to pretax income for the year ended December 31, 2021 is as follows:

	<u>Amount</u>	<u>Percentage</u>
Provision for income taxes at the U.S. federal rate	\$ 747,419	21.00%
State tax, net of federal effect	176,093	4.95%
Change in valuation allowance	(290,276)	(8.16)%
True-up	200,143	5.62%
Federal tax carryback	<u>(47,874)</u>	<u>(1.35)%</u>
Income tax expense	<u>\$ 785,505</u>	<u>22.06%</u>

Each of the Trust's and the CI Subsidiary Trust's Federal tax returns for the prior three fiscal years remains subject to examination by the Internal Revenue Service. The Trust and CI Subsidiary Trust file in various states and generally the prior four years remain subject to examination by each state's respective taxing authority.

**E. Distributions to Shareholders:**

The Trust records distributions to shareholders from distributable earnings, if any, on the ex-dividend date. The Trust's dividend is declared four times per year, in April, July, October, and December. The Trust's net realized capital gain distribution, if any, is declared in December.

The tax basis components of distributable earnings at December 31, 2021 are as follows:

Undistributed Ordinary Income	\$13,935,311
Undistributed Realized Gains	1,798,848
Net Unrealized Appreciation	10,764,696
Other Temporary Differences/ Subsidiary Trust	12,607,382

The differences between book-basis and tax-basis unrealized appreciation/(depreciation) are primarily due to partnership investments.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

The following information is provided on a tax basis as of December 31, 2021:

Tax Cost	\$350,828,262
Tax Unrealized Appreciation	26,134,202
Tax Unrealized Depreciation	(15,369,520)
Net Unrealized Appreciation	10,764,682

The tax character of distributions declared during the years ended December 31, 2021 and 2020 was as follows:

Distributions paid from:	<u>2021</u>	<u>2020</u>
Ordinary Income	\$19,451,250	\$19,451,250

**3. Investment Services Contract****A. Services:**

Under an Investment Services Contract (the "Contract") with the Trust, Barings agrees to use its best efforts to present to the Trust a continuing and suitable investment program consistent with the investment objectives and policies of the Trust. Barings represents the Trust in any negotiations with issuers, investment banking firms, securities brokers or dealers and other institutions or investors relating to the Trust's investments. Under the Contract, Barings also provides administration of the day-to-day operations of the Trust and provides the Trust with office space and office equipment, accounting and bookkeeping services, and necessary executive, clerical and secretarial personnel for the performance of the foregoing services.

**B. Fee:**

For its services under the Contract, Barings is paid a quarterly investment advisory fee of 0.3125% of the net asset value of the Trust as of the last business day of each fiscal quarter, which is approximately equal to 1.25% annually. A majority of the Trustees, including a majority of the Trustees who are not interested persons of the Trust or of Barings, approve the valuation of the Trust's net assets as of such day.

**4. Borrowings****Senior Secured Indebtedness**

MassMutual holds the Trust's \$30,000,000 Senior Fixed Rate Convertible Note (the "Note") issued by the Trust on November 15, 2017. The Note is due November 15, 2027 and accrues interest at 3.53% per annum. MassMutual, at its option, can convert the principal amount of the Note into common shares. The dollar amount of principal would be converted into an equivalent dollar amount of common shares based upon the average price of the common shares for ten business days prior to the notice of conversion. For the year ended December 31, 2021, the Trust incurred total interest expense on the Note of \$1,059,000.

The Trust may redeem the Note, in whole or in part, at the principal amount proposed to be redeemed together with the accrued and unpaid interest thereon through the redemption date plus a Make Whole Premium. The Make Whole Premium equals the excess of (i) the present value of the scheduled payments of principal and interest which the Trust would have paid but for the proposed redemption, discounted at the rate of interest of U.S. Treasury obligations whose maturity approximates that of the Note plus 0.50% over (ii) the principal of the Note proposed to be redeemed.

Management estimates that the fair value of the Note was \$31,830,120 as of December 31, 2021. The fair value measurement of the Note would be categorized as a Level 3 under ASC 820.

**Credit Facility**

On July 22, 2021 (the "Effective Date"), MassMutual provided to the Trust, a five-year \$30,000,000 committed revolving credit facility. Borrowings under the revolving credit facility bear interest, at the rate of LIBOR plus 2.25%. The Trust will also be responsible for paying a commitment fee of 0.50% on the unused amount. For purposes of calculating the commitment fee for the period from the Effective Date to the earlier to occur of (x) the date that is 270 days after the Effective Date and (y) the first date on which the aggregate outstanding borrowings is greater than \$15,000,000, the unused amount shall be deemed to be in an amount equal to \$15,000,000. As of December 31, 2021, the Trust had \$8,000,000 of outstanding borrowings on the revolving credit facility. Management estimates that the fair value of the Credit Facility was \$8,000,000 as of December 31, 2021. The fair value measurement of the Credit Facility would be categorized as a Level 3 under ASC 820.

**5. Purchases and Sales of Investments**

For the year ended  
12/31/2021

	<u>Cost of Investments Acquired</u>	<u>Proceeds from Sales or Maturities</u>
Corporate restricted securities	\$151,201,497	\$128,897,955
Corporate public securities	5,641,383	16,084,869

**6. Risks****Investment Risks**

In the normal course of its business, the Trust trades various financial instruments and enters into certain

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

investment activities with investment risks. These risks include: market risk; volatility risk; credit, counterparty and liquidity risk; loan risk; prepayment and extension risk; duration risk; below investment grade (high yield/junk bond) instruments risk; borrowing and leverage risk; and management risk. It is the Trust's policy to identify, measure and monitor risk through various mechanisms including risk management strategies and credit policies. These include monitoring risk guidelines and diversifying exposures across a variety of instruments, markets and counterparties. There can be no assurance that the Trust will be able to implement its credit guidelines or that its risk monitoring strategies will be successful.

**Impacts of COVID-19**

The pandemic related to the global spread of novel coronavirus disease (COVID-19), which was first detected in December 2019, has resulted in significant disruptions to global business activity and the global economy, as well as the economies of individual countries, the financial performance of individual companies and sectors, and the securities and commodities markets in general. This pandemic, the full effects of which are still unknown, has resulted in substantial market volatility and may continue to adversely impact the prices and liquidity of the Trust's investments and the Trust's performance.

**LIBOR**

The United Kingdom's Financial Conduct Authority ("FCA"), which regulates LIBOR, announced a desire to phase out the use of LIBOR by the end of 2021. LIBOR has historically been a common benchmark interest rate index used to make adjustments to variable-rate loans. It is used throughout global banking and financial industries to determine interest rates for a variety of financial instruments and borrowing arrangements. The transition process might lead to increased volatility and illiquidity in markets that currently rely on LIBOR to determine interest rates. It could also lead to a reduction in the value of some LIBOR-based investments held by a fund and reduce the effectiveness of new hedges placed against existing LIBOR-based investments. While some LIBOR-based instruments contemplate a scenario where LIBOR is no longer available by providing for an alternative rate-setting methodology, not all have such provisions and there may be significant uncertainty regarding the effectiveness of any such alternative methodologies.

**7. Commitments and Contingencies**

During the normal course of business, the Trust may enter into contracts and agreements that contain a variety of representations and warranties. The exposure, if any, to the Trust under these arrangements is unknown as this would involve future claims that

may or may not be made against the Trust and which have not yet occurred. The Trust has no history of prior claims related to such contracts and agreements.

At December 31, 2021, the Trust had the following unfunded commitments:

Delayed Draw Term Loans:

<u>Investment</u>	<u>Unfunded Amount</u>	<u>Unfunded Value</u>

As of December 31, 2021 unfunded commitments had unrealized appreciation of \$3,234 or 0.00% of net assets.

### 8. Aggregate Remuneration Paid to Officers, Trustees and Their Affiliated Persons

For the year ended December 31, 2021, the Trust paid its Trustees aggregate remuneration of \$408,701, including compensation to Mr. Joyal (who retired as a Trustee effective April 23, 2021). During the year, the Trust did not pay any compensation to Mr. Noreen or to Mr. Lloyd (who was elected a Trustee effective April 23, 2021). Each of Messrs. Joyal, Noreen and Lloyd is an "interested person" (as defined by the 1940 Act) of the Trust.

All of the Trust's officers are employees of Barings or MassMutual. Pursuant to the Contract, the Trust does

not compensate its officers who are employees of Barings or MassMutual (except for the Chief Compliance Officer of the Trust unless assumed by Barings). For the year ended December 31, 2021, Barings paid the compensation of the Chief Compliance Officer of the Trust.

Mr. Noreen is an "affiliated person" (as defined by the 1940 Act) of MassMutual and Barings. Mr. Lloyd is an "affiliated person" (as defined by the 1940 Act) of Barings.

### 9. Certifications (Unaudited)

As required under New York Stock Exchange ("NYSE") Corporate Governance Rules, the Trust's principal executive officer has certified to the NYSE that she was not aware, as of the certification date, of any violation by the Trust of the NYSE's Corporate Governance listing standards. In addition, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and related SEC rules, the Trust's principal executive and principal financial officers have made quarterly certifications, included in filings with the SEC on Forms N-CSR and N-PORT, relating to, among other things, the Trust's disclosure controls and procedures and internal control over financial reporting, as applicable.

### 10. Quarterly Results of Investment Operations (Unaudited)

	<u>March 31, 2021</u>

**11. Subsequent Events**

The Trust has evaluated the possibility of subsequent events after the balance sheet date of December 31, 2021, through the date that the financial statements are issued. The Trust has determined that there are no material events that would require recognition or disclosure in this report through this date.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Shareholders and Board of Trustees of Barings Corporate Investors:

*Opinion on the Financial Statements*

We have audited the accompanying consolidated statement of assets and liabilities of Barings Corporate Investors and subsidiary (collectively, the "Trust"), including the consolidated schedule of investments, as of December 31, 2021, the related consolidated statements of operations and cash flows for the year then ended, the consolidated statements of changes in net assets for each of the years in the two-year period then ended, and the related notes (collectively, the "consolidated financial statements") and the consolidated selected financial highlights (the "consolidated financial highlights") for each of the years in the five-year period then ended. In our opinion, the consolidated financial statements and consolidated financial highlights present fairly, in all material respects, the financial position of the Trust as of December 31, 2021, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years in the five-year period then ended, in conformity with U.S. generally accepted accounting principles.

*Basis for Opinion*

These consolidated financial statements and consolidated financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these consolidated financial statements and consolidated financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements and consolidated financial highlights are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements and consolidated financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements and consolidated financial highlights. Such procedures also included confirmation of securities owned as of December 31, 2021, by correspondence with custodians and agent banks, or by other appropriate auditing procedures when replies from agent banks were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements and consolidated financial highlights. We believe that our audits provide a reasonable basis for our opinion.

A stylized, handwritten-style logo for KPMG LLP, with the letters 'KPMG' in a larger font and 'LLP' in a smaller font to the right.

We have served as the auditor of the Trust since 2004.

\* Officers hold their position with the Trusts until a successor has been duly elected and qualified. Officers are generally elected annually by the Board of each Trust. The officers were last elected on October 27, 2021.

## DIVIDEND REINVESTMENT AND SHARE PURCHASE PLAN

Barings Corporate Investors (the "Trust") offers a Dividend Reinvestment and Share Purchase Plan (the "Plan"). The Plan provides a simple way for shareholders to add to their holdings in the Trust through the receipt of dividend shares issued by the Trust or through the investment of cash dividends in Trust shares purchased in the open market. A shareholder may join the Plan by filling out and mailing an authorization card to DST Systems, Inc., the Transfer Agent.

Participating shareholders will continue to participate until they notify the Transfer Agent, in writing, of their desire to terminate participation. Unless a shareholder elects to participate in the Plan, he or she will, in effect, have elected to receive dividends and distributions in cash. Participating shareholders may also make additional contributions to the Plan from their own funds. Such contributions may be made by personal check or other means in an amount not less than \$10 nor more than \$5,000 per quarter. Cash contributions must be received by the Transfer Agent at least five days (but no more than 30 days) before the payment date of a dividend or distribution.

Whenever the Trust declares a dividend payable in cash or shares, the Transfer Agent, acting on behalf of each participating shareholder, will take the dividend in shares only if the net asset value is lower than the market price plus an estimated brokerage commission as of the close of business on the valuation day. The valuation day is the last day preceding the day of dividend payment.

When the dividend is to be taken in shares, the number of shares to be received is determined by dividing the cash dividend by the net asset value as of the close of business on the valuation date or, if greater than net asset value, 95% of the closing share price. If the net asset value of the shares is higher than the market value plus an estimated commission, the Transfer Agent, consistent with obtaining the best price and execution, will buy shares on the open market at current prices promptly after the dividend payment date.

The reinvestment of dividends does not, in any way, relieve participating shareholders of any federal, state or local tax. For federal income tax purposes, the amount reportable in respect of a dividend received in newly-issued shares of the Trust will be the fair market value of the shares received, which will be reportable as ordinary income and/or capital gains.

As compensation for its services, the Transfer Agent receives a fee of 5% of any dividend and cash contribution (in no event in excess of \$2.50 per distribution per shareholder.)

Any questions regarding the Plan should be addressed to DST Systems, Inc., Agent for Barings Corporate Investors' Dividend Reinvestment and Share Purchase Plan, P.O. Box 219086, Kansas City, MO 64121-9086.
