

Dividend Summary

Important Information

- The Fund invests principally in a portfolio of high yield (i.e. sub-investment grade) fixed and floating rate corporate bonds, notes and other fixed and floating rate income securities, focusing primarily on North American and European high yield instruments which are listed or traded on recognised markets in Europe or North America.
- The Fund is subject to risks relating to investment, concentration, credit, interest rate fluctuations, downgrading, valuation, credit rating, and currency risks. The Fund's investment may be concentrated in North American and European markets and the value of the Fund may be more volatile. Further, investment in countries within the Eurozone may involve Eurozone sovereign debt crisis risks.
- The Fund's investment in sub-investment grade or unrated debt instruments may be subject to higher liquidity, volatility and credit risks than investment grade instruments, as well as increased risk of loss of principal and interest.
- RMB classes are subject to RMB currency risks. RMB is currently not freely convertible and conversion of RMB is subject to foreign exchange control policies and restrictions. There is no guarantee that RMB will not be subject to depreciation. Under exceptional circumstances, payment of realisation proceeds and/or dividend payment from underlying investments to the Fund in RMB may be delayed.
- The Fund may invest in derivatives for hedging and/or investment purposes which may involve counterparty/credit, liquidity, valuation, volatility and over-the-counter transaction risks. Exposure to derivatives may lead to a high risk of significant loss by the Fund.
- The Fund's investment in debt instruments with loss-absorption features ("LAP") are subject to risks of contingent write-down or contingent conversion to ordinary shares upon occurrence of complex and unpredictable trigger events which may result in higher price volatility and total loss of amount invested. LAP may also be exposed to liquidity, valuation and sector concentration risk.
- Dividends, at the discretion of the Directors, may be paid out of unrealised capital gains and/or gross income while charging some or all fees and expenses out of capital (which represent effectively paying dividends out of capital), resulting in an increase in distributable income. The Fund may also pay dividends directly out of capital. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or any capital gains attributable to that original investment and results in an immediate reduction of the Fund's net asset value per share.
- Investors may suffer substantial loss of their investments in the Fund.

Under exceptional circumstances, payment of realisation proceeds and/or dividend payment from underlying investments to the Fund in RMB may be delayed.
- The Fund may invest in derivatives for hedging and/or investment purposes which may involve counterparty/credit, liquidity, valuation, volatility and over-the-counter transaction risks. Exposure to derivatives may lead to a high risk of significant loss by the Fund.
- The Fund's investment in debt instruments with loss-absorption features ("LAP") are subject to risks of contingent write-down or contingent conversion to ordinary shares upon occurrence of complex and unpredictable trigger events which may result in higher price volatility and total loss of amount invested. LAP may also be exposed to liquidity, valuation and sector concentration risk.
- Dividends, at the discretion of the Directors, may be paid out of unrealised capital gains and/or gross income while charging some or all fees and expenses out of capital (which represent effectively paying dividends out of capital), resulting in an increase in distributable income. The Fund may also pay dividends directly out of capital. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or any capital gains attributable to that original investment and results in an immediate reduction of the Fund's net asset value per share.
- Investors may suffer substantial loss of their investments in the Fund.

Dividend is not guaranteed, subject to Fund manager's discretion. A positive yield does not imply a positive return of the Fund. Annualised dividend yield is for reference only.

The amount of dividend payout for the period depends upon the number of unit held by the investors as of the record date for that period's distribution. The annualised dividend yield is calculated by: $[(1 + \text{Distribution per unit for the month/ex-dividend date NAV per unit})^{12}] - 1$.

[#]For share classes aiming to pay dividend on a monthly basis, dividend amount or dividend rate is not guaranteed. Dividend can be paid out of / effectively out of its capital. Please refer to point 7 of the Important Information.

¹Annualised dividend yield is denominated in the currency of the respective share class. US/HK dollar-based investors are therefore exposed to fluctuations in the exchange rate of the relevant currency against US/HK dollar.

4. 人民幣類別須承受人民幣貨幣風險。人民幣現時並非自由兌換貨幣而人民幣兌換須受外匯管制政策及限制所規限。概不保證人民幣不會貶值。在特殊情況下，相關投資以人民幣向本基金支付的變現所得款項及／或股息付款或會受到延誤。
